

# Camille Myers

## Biology: Pre-Dental

---

### Background

My name is Camille Myers and I am from Aiken, SC. I am senior majoring in Biology with a concentration in pre- dental and a minor in English- creative writing.

I chose USCB because of its location in the low country and biology program.

I was inspired to major in Biology by the environment around me. I always loved learning about the processes of living organisms.

### Favorite Class

My favorite class at USCB was a Women’s Writers course I took with Dr. Hoffer. The course expanded my knowledge on what it means to be a writer as a woman, as well as the significance of women in literature.

### Best Piece of Advice

Don’t be afraid to change.

### Fun Fact:

I was published twice in the literary Journal: The Pen, here at USCB.

Aiken, SC
