

Elyse Andrejcisk

Biology: Marine Biology

Background

My name is Elyse Andrejcisk. I am pursuing a marine biology major with a minor in hospitality.

I choose USCB due to the class sizes and the area. I like how the school is close to the beach and Hilton's head has a lot of opportunities for both my degrees. The class sizes are amazing because they aren't so big that you are a number to your teacher. At USCB, the teachers take pride in helping their students excel.

I choose to major in marine biology because ever since I was a kid I was fascinated with marine life. I hope that choosing this major will help me make a difference in the world while doing something I love.

Best Piece of Advice

One piece of advice I would give a new student is that it is okay to change major's do what makes you happy and what you see yourself thriving in.

Fun Fact:

I am one out of seven children that are all girls!

Fort Mill, South Carolina
