

KyLeigh Blackwell

Interdisciplinary

Background

Hello, my name is KyLeigh Blackwell, I'm 21 years old, and I'm a Senior Interdisciplinary Studies major with a minor in English Literature.

I chose USCB for the program with IDST and the opportunity to get a quality degree in a quality place for a quality price.

I was inspired to major in IDST because I love the feeling of being able to connect classes together, so I wanted to do more of that at the research level.

Favorite Class

My favorite class that I have taken at USCB was Adolescent Literature and Development because it was in this class that I was able to make connections to past and present literature.

Best Piece of Advice

I want students to know that they can always explore their options. There is no shame in changing majors and minors. If you aren't happy with your path, then change it.

Fun Fact:

I changed my minor from Film Studies to English Literature after realizing that I wanted to teach people about the books that I've loved.
