

Edana Campbell

Biology: Pre-Med

Background

Hi! My name is Edana Campbell and I am a rising senior at USCB. I major in Biology with a focus on Pre-Medicine. I also have a minor in Psychology.

I chose to come to USCB because it is close to Savannah, GA where I am from. USCB is like a home away from home and the campus community is comforting.

I decided to major in Biology, Pre-Medicine because I want to be a Physical Therapist. I also minored in Psychology because I like knowing why things happen the way they do.

Favorite Class

My favorite class so far has been Organic Chemistry because it is a lot of problem solving and analyzing.

Best Piece of Advice

One piece of advice I would give students is to focus on your goals and never give up. Always put your best foot forward and you will be happy with the results.

Fun Fact:

I love animals a lot. I own a leopard gecko, 3 dogs, and a cat.
